	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** ● Connect to a spreadsheet ● Read a cell from the spreadsheet ● Send it to a specified Discord channel	**Schedule - (For V2.0+)** ● Track who has checked in ● Send a message when everyone has checked in ● Only run if there's a swap, send a message in a different channel otherwise
Not Important	**Delegate - (Use a library)** ● Write the check-in message ● Change the message based on the hour ● Send a different message if there's nobody entering/leaving	**Delete - (Cut it)** ● Column customization for full compatibility with any sheet ● Send a message if someone hasn't checked in within 10 minutes ● Customize the check-in message without opening the spreadsheet
